AWS Migration Acceleration Programme (MAP)

Leverage Rackspace Technology expertise and AWS best practices to design, plan and execute your cloud migration quickly, cost-effectively and with less risk.

Accelerate your AWS migration with Rackspace Technology

Move beyond lift-and-shift and let Rackspace Technology® help you unlock the full value of AWS in your business. With generous funding and initiatives available plus experience of migrating thousands of customers to AWS, we'll help you grow and evolve with our three-phase Migration Acceleration Programme.

Education

The Migration Acceleration Programme journey

As a Premier Consulting Partner & AWS' Migration Partner of the Year, Rackspace Technology can provide access to the MAP funding programme and guide you through the process end-to-end.

The following three phases will help you to unlock the true value of AWS in your business by accelerating the development of your technical road map, building confidence in your first steps to cloud adoption and successfully executing on your migration:

1 → **2** → **3**

Assess	Mobilise	Migrate & Modernise
Create a case for change:	Begin bringing your services into AWS:	Execute on migration strategies:
· Understand and document your current state	· Create a detailed design for Landing Zone and the initial deployment	· Migrate your data
· Deploy and run discovery tools (where needed)	· Validate migration plans, strategies and move groups	· Build & evolve security services into the environment
· Provide high-level design	· Deliver first migrations or workloads and services into AWS	· Automate services & modernise applications
· Provide a migration plan and strategy	· Validate your business case, including future state and planned migration costs	· Operate & optimise towards cloud native services
· Provide a business case		· Rehosting, refactoring, and modernising to adopt best of breed technologies
Funding: $60,000	Funding: $1 to $1 Costs up to $400k	Funding: 25% ARR (Partner Cash/ Credits)

PARTNER OF THE YEAR

2020

"We have a team of technical experts who have created innovative technology that put Aramex at the forefront of our industry for many years. However, we knew that we were embarking on a colossal shift of our IT environment. The collaboration between our internal team and that of AWS and Rackspace Technology was critical to the success of this transformation."

Mohammed Sleeq, Chief Digital Officer, Aramex
